

Pure Recovery

WITHOUT

enhanced Recovery, 80% to 90% of un-separated ash goes to landfills

WITH

enhanced Recovery, 30% to 50% of true ash is landfilled as ash cakes

GENERATE

a easily handled, dry ash cake for disposal

GENERATE

an industrial solid fuel source

LOW COST

LIGHTWEIGHT

(less than standard aggregate and sand bulk density)

GENERATE

clean inert aggregate products for use in asphalt (GreenTop™)

GENERATE

a sand product with multiple potential uses

100% RECYCLED

content which could provide LEED (Leadership on energy and environmental design) accreditation credit opportunity

DOUBLES

current landfill capacity

ENHANCED

ferrous and non ferrous metal recovery (higher grade material)
